Facts About the Bible.

A prisoner, condemned to solidary confinement, obtained a copy of the Bible, and in three years of careful study gathered the following facts:

The Bible contains 3,586,489 letters; 773,692 words; 31,173 verses; 1,189 chapters and 6 books. The word "and" occurs 46,277 times. The word "Lord" occurs 1,855 times. The word "Reverend" occurs but once, which is in the 9th verse of the 111th Psalm. The middle verse is the 9th verse of the 118th Psalm. The 21st verse of the 7th chapter of Ezra contains all the letters of the alphabet except the letter j. The finest chapter to read is the 26th chapter of the Acts of the Apostles. The 19th chapter of II Kings and the 37th chapter of Isaiah are alike. The longest verse is the 9th verse of the 8th chapter of Esther. The shortest verse is the 35th verse of the 11th chapter of St. John. The 8th, 15th, 21st and 31st verses of the 107th Psalm are alike. Each verse of the 136th Psalm ends alike. There are no words or names of more than six syllables.

Tips on Banking.

Your bank is the best commercial reference you can give. Date your checks the day they are made. Do not anticipate deposits. It is unlawful to give check when the amount is not in the bank. Do not overdraw your bank account. To stop payment of a check, notify your bank at once, giving number, date and name of payee. Certified checks are charged to your account at once by the bank. If not used they should be re-deposited as To destroy a certified check will cause delay and rouble to have money refunded.
